Bag,  
Inc.**  
"SIMPLY  
EFFECTIVE"

## Dirt Bag, Inc. Expands Product Line

**February 13, 2004**—Dirt Bag, Inc. of Calumet, Michigan announces a new addition to its patented, totally encasing computer dust filter family. Ever focused on customer satisfaction, we have answered the call for a monitor dust cover. The new monitor cover follows in the footsteps of our enormously effective computer cover; simply and effectively preventing dust from reaching your computer or monitor while allowing cooling airflow to reach those expensive components. The risk of overheating is reduced and monitor life is increased with the Dirt Bag monitor dust cover.

Designed to be an economical and effective solution for protecting industrial PC's; Dirt Bag products users benefit by drastically reducing the amount of airborne dust, dirt and grime their computer's internal components collect.

A division Kiilunen Manufacturing Group, Inc., Dirt Bag is a niche oriented company that has built a product line by solving industrial challenges.

To see the Dirt Bag computer and monitor dust covers in action, please visit us at TSI Carolinas February 19<sup>th</sup> and 20<sup>th</sup> in Greensboro North Carolina booth # 2220. Additional information on Dirt Bag's products can be obtained on the web: [www.dirtdag.biz](http://www.dirtdag.biz) or by e-mail: [info@dirtdag.biz](mailto:info@dirtdag.biz)
